All job sites shall conform to the Storm Water Pollution Prevention Plan and keep the streets and drainage systems of the City free of sediments, debris and trash. It is the responsibility of the contractor and owner to be familiar with and understand the Storm Water Pollution Prevention Ordinances.

Separate permits are required for electrical, plumbing, heating, ventilation or air conditioning. This permit becomes null and void if work or construction authorized is not commenced within six (6) months, or if work or construction is suspended or abandoned for a period of six (6) months at any time after work is commenced.
